Vehicle warranty	**5 years / unlimited kilometres** Australian new-vehicle warranty · Checked on 2026-10-14 Normal new-vehicle use; separate component cover, exclusions and owner obligations remain in the linked policy. Commercial-use applicability should be confirmed with Tesla; no unsupported commercial kilometre cap is asserted. 11	**6 years / 150,000 km** Australian new-vehicle warranty · Checked on 2026-10-14 12	**7 years / unlimited km** Australian new-vehicle warranty · Checked on 2026-10-14 Private-use baseline. Commercial use at any time, including rental, hire, taxi, rideshare, courier, driving-school, security, bus or tour use, is limited to 7 years / 150,000 km, whichever occurs first. Non-battery high-voltage components including on-board charger, traction motor and electric power-control unit: 7 years / 150,000 km. High-voltage battery has its separate model-year-specific policy. Original 12 V battery: 2 years unlimited km. AV/AVN head unit: 3 years unlimited km. Paint appearance: 1 year; refrigerant charge: 1 year except covered repairs; tyres use supplier warranties. Starts from recorded retail delivery, first registration or first commercial use, whichever occurs first. Western Australian dealer demonstrators have the stated purchase-date exception; used demonstrator mileage still counts. Applies to vehicles sold by authorised Kia dealers, registered and operated in mainland Australia and Tasmania; remaining warranty transfers with vehicle.

			Normal wear, maintenance, misuse, accident damage and defects attributable to modifications or non-genuine parts are excluded; statutory consumer rights remain.

Criterion	Tesla Model Y Premium Long Range AWD	BYD Sealion 7 Premium RWD	Kia EV3 Air 2WD Standard Range
Battery warranty	**8 years / 192,000 km; minimum 70% capacity retention** Australian power-battery warranty · Checked on 2026-10-14 Applies to battery and drive unit, whichever time/distance limit occurs first; minimum 70% battery-capacity retention over the warranty period. 11	**8 years / 160,000 km; minimum 70% battery capacity retention** Australian power-battery warranty · Checked on 2026-10-14 12	**8 years / 160,000 km; 70% capacity floor** Australian traction-battery warranty · Checked on 2026-10-14 Private-use model-year policy: applies to MY2027 onward and every EV4 model year. Pre-MY2027 non-EV4 vehicles instead have 7 years / 150,000 km, whichever occurs first. Coverage addresses original high-voltage battery capacity dropping below 70%; a repair must restore at least 70%, not necessarily as-new capacity. Any commercial use caps component cover at 7 years / 150,000 km, whichever occurs first. Non-battery high-voltage components have their separate 7-year / 150,000-km policy. Warranty commencement, authorised Australian sale, transfer, maintenance, misuse and damage exclusions follow the vehicle policy. 13

SOFTWARE UPDATE

2026.16.6

- Spring: Hey Grok/location reminders, overnight automatic update installation and extended Dashcam history/clip saving.
- Pet Mode customisation, rear-screen maps, energy logs and supported blind-spot accent lighting.
- Optional Australian FSD Supervised 14.3.3 in the same carrier.

Release notes tracked by an independent Australian fleet log

.16.6 carries .14 Spring plus FSD 14. FSD is paid/eligible and continuously supervised.

132

2026-05-01

OTA

SOFTWARE UPDATE

2026.8.3.10

- Comfort Braking on eligible Model Y.
- Spotify playlist placement, navigation-suggestion control and Grok voice refinements.

Release notes tracked by an independent Australian fleet log

FSD 13.2.9 still carried; this is not a new FSD network. Model 3 does not inherit a Model Y-only braking feature merely by sharing version.

133

2026-02-27

OTA

SOFTWARE UPDATE

2026.2.6.1 / 2026.2.6.5

- Grok beta with navigation commands is documented in Australian cars.
- Other software/security refinements in the .2 family.

Release notes tracked by an independent Australian fleet log

Requires AMD processor and Premium Connectivity or Wi-Fi. Earlier .6.x may precede representative date. At launch navigation commands; broad car controls came later.

134

2025-12-23

OTA

SOFTWARE UPDATE

2025.44.25.3.1 / 2025.46.5

- Dashcam annotations, Dog Mode phone Live Activity/alerts and supported wireless-charger controls.
- Navigation favourites/pins, charging preferences and entertainment/customisation changes.

Release notes tracked by an independent Australian fleet log

.46.5 carries .44 Holiday features.

135

2025-11-26

OTA

SOFTWARE UPDATE

2025.38.8.1 / 2025.39.6

- Media organisation/recently-played refinements and phone-key profile security.
- Configuration-dependent visual themes and the .38 feature merge into Australian FSD software.

Release notes tracked by an independent Australian fleet log

Representative HW4 rollout late November; earlier old-HW3 .38.8.1 receipts also observed. FSD 13.2.9 unchanged.

136

2025-09-26

OTA

SOFTWARE UPDATE

2025.32.7.1 / 2025.33.5

- Low Power Mode and settings refinements including Dog Mode minimum-temperature restrictions.
- Merge of .32 features into the Australian HW4/FSD carrier.

Release notes tracked by an independent Australian fleet log

FSD 13.2.9 carried unchanged.

137

2025-09-18

OTA plus feature entitlement

SOFTWARE UPDATE

2025.26.7.10 / FSD Supervised 13.2.9 Down Under

- First public Australian FSD Supervised on eligible AI4 vehicles.
- Navigation-aware lane changes, turns and intersections while a responsible driver continuously supervises.

Release notes tracked by an independent Australian fleet log

Paid/subscription/trial and hardware eligibility apply. No Australian HW3 FSD availability inferred.

138

2025-07-28

OTA

SOFTWARE UPDATE

2025.26.3.1 / 2025.26.7

- Audio equaliser presets/settings and charger-site arrival information.

- Configuration-dependent dashcam, lighting and owner-guidance refinements.

Release notes tracked by an independent Australian fleet log

HW3 late July; HW4 later. Global Grok in .26 was not Australian delivery.

139

2025-07-09

OTA

SOFTWARE UPDATE

2025.20.6 / 2025.20.6.1 / 2025.20.8

- Charge-cable release by holding the rear-left door handle for three seconds with recognised key/unlocked vehicle.
- Camera-view changes, child-left-alone detection on equipped Model Y and security fixes.

Release notes tracked by an independent Australian fleet log

.20.6.1 alone is not Juniper evidence. European Model 3 haptic collision-warning item excluded.

140

2025-05-08

OTA

SOFTWARE UPDATE

2025.14.3.2

- Alternative trip plans, desired arrival energy and avoid-highways setting.
- Accessory power after exit, location-specific boot height and expanded B-pillar Dashcam/Sentry views where equipped.

Release notes tracked by an independent Australian fleet log

Near Juniper launch. Excluded from conservative Juniper post-sale minimum because this evidence does not isolate a post-delivery refreshed Model Y installation. Feature hardware restrictions apply.

141

2025-04-22

OTA

SOFTWARE UPDATE

2025.8.8.1

- User-accessible battery health test and revised consumption-history display.
- Energy estimate learns usage characteristics; actual available battery energy remains unchanged.

Release notes tracked by an independent Australian fleet log

Model 3 Performance damping setting is trim-specific.

142

2025-03-25

OTA

SOFTWARE UPDATE

2025.2.6.1 / 2025.2.6.2 / 2025.2.8.1

- Preconditioning when navigating to additional third-party DC chargers.
- Rear cross-traffic chime; Android UWB hands-free boot opening on eligible Model 3.

Release notes tracked by an independent Australian fleet log

Hardware/phone-specific boot opening must stay conditional.

143

2024-12-22

OTA

SOFTWARE UPDATE

2024.44.25.4

- Apple Watch key/control support and mobile Dashcam viewer.
- Rear cross-traffic visual alert, maintenance summary, search along route and weather improvements.

Release notes tracked by an independent Australian fleet log

Earlier .44 and Holiday variants grouped once. Phone/app and connectivity requirements apply. Desired arrival energy was not in the retrieved AU Holiday rollout; AU introduction is recorded in 2025.14. Juniper not yet delivered.

144

2024-10-23

OTA

SOFTWARE UPDATE

2024.38.2 / 2024.38.4 / 2024.38.6 / 2024.38.7

- Spotify Free through the in-car player.
- Custom reverse mirror tilt and mirror-fold shortcut.

Release notes tracked by an independent Australian fleet log

Original Model Y/Model 3 history.

145

Configuration changes, separately recorded

These are not delivered OTA releases.

Premium Long Range AWD acceleration, October 2026 order page
4.8 s → 4.3 s

146

Model Y L acceleration, launch to October order page
5.0 s at launch → 4.5 s reported

147

Performance price and range, October

A$89,400 reported → A$84,900 · 580 km

146

BYD SEALION 7 · PREMIUM RWD

At least 2 software releases documented

Australian owners report two releases, V3.0.0 and V3.1.0. BYD publishes no release list, so this is a minimum.

Recorded from 5 Oct 2024 to 5 Oct 2026. The exact total is not published.

148

2 entries shown.

2026-06-23

OTA

SOFTWARE UPDATE

V3.1.0; IVI2604 observed

- Owner-reported ICC/control refinements and updated scenes/settings; differences depend on prior software.

Owner reports

No Australian Comfort Driving or battery-preheat introduction proven.

149

2025-10-24

OTA

SOFTWARE UPDATE

V3.0.0; IVI2507 often paired

- Owner-reported ACC/ICC spoken-prompt controls and navigation on fitted head-up display.
- Reported child-detection settings, Android Auto rhythm lighting and connection refinements.

Owner reports

Oct 27 thread explicitly Australian. Package version and IVI build are distinct. Owner perception of reliability improvement is not measured proof of a hardware fix. Auto-on/off introduction not verified.

150

KIA EV3 · AIR 2WD STANDARD RANGE

At least 6 update notices documented

> Six reverified notices + two older records pending renewed evidence. Eight is not a verified total.

Kia Australia's notice index lists six updates. Two older records, from 13 July and 2 September, could not be rechecked. Notices for a sunroof apply only to cars that have one.

Recorded from 5 Oct 2024 to 5 Oct 2026. The exact total is not published.

Notice states availability from this date; not evidence every eligible VIN installed the update. Firmware version not published.

Configuration changes, separately recorded

These are not delivered OTA releases.

GT-Line AWD announced

Four front-drive grades → AWD version added (reported, provisional)

Research qualifications

Tesla Model Y · Premium Long Range AWD

L scores 84%, with explicit child-restraint installation cautions.

Current 4.5 seconds is a reported configuration figure; launch was 5.0 seconds. Obtain a dated Australian order quote.

Australian manual: L 4,976 mm; other material: 4,969 mm. Premium manual: 4,790 mm excluding plate bracket; earlier retail record: 4,792 mm. Preserve measurement basis.

The current AU manual is configuration-dependent, while the AU shop still restricts its adapter to Model Y L. Five-seat V2L needs VIN/build and adapter confirmation.
